The Brenflocc can be our primary R n B plan for now. Pending testing 8/25 I hope.

We need something for Gk so we can try that. My thought is to have START test both while out there. A small order for trial run purposes is okay.

Maybe 5 bags ? Not sure how far it will go and we don't know the demand w GK work.

Thanks. Should I order that other flocc? It's \$3/lb, so about \$165/bag and takes 1 week lead time.

Matt - I requested 60K on 7/25. Let me know your estimate; we have modified the timing now. However, GK overlap may make up if that's short.

Just checked the TO to start on an estimate. We never received additional funding. All we got was a time extension with a note on the bottom that they were holding funding until you returned. This was back in June.
